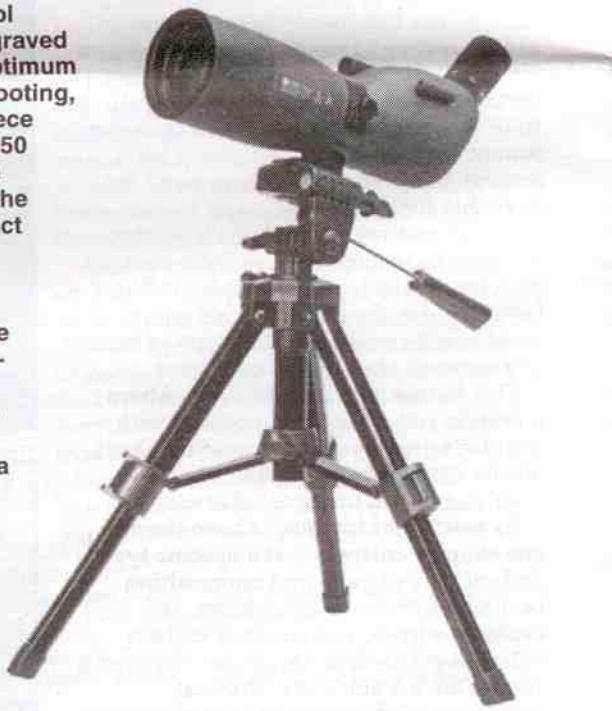
To learn more about the full range of products offered from Extreme Shock Ammunition, please visit extremeshockusa.net, call Extreme Shock at 276-926-6772.

Konus has everything a shooter needs for summer fun

Whether its target shooting at the range, plinking, or hunting, Konus has everything any shooter needs for some good old-fashioned summer fun. "Summer is an in-between season in terms of hunting, but shooters still want the opportunity to practice and keep their skills sharp," said Mark Shore, VP of Sales & Marketing, Konus USA. "Konus offers a full range of high-quality optics including riflescopes, binoculars and spotting scopes, built for a range of activities, and all featuring the value and quality, for which Konus is best known." Hitting the range for some target practice? There are two pistol scopes in the KonusPro line that feature Konus' famous etched reticle that will never break, spin or misalign, regardless of the caliber being used. The 2x28 and 2-8x28 are the only pistol scopes on the market with an engraved 30/30 reticle. They also feature optimum eye relief needed for handgun shooting, multi-coated optics, and a one-piece tube. Both are parallax correct at 50 yards. For short to medium range shooting or fast moving targets, the new KonusPro 2-7x32 and compact 4x32 are ideal. Available in both matte black and silver, all four scopes feature the distinctive engraved reticle, finger adjustable turrets, mounting rings and multi-coated optics. Parallax correct at 75 yards, both scopes are shock-proof and fogproof. Konus also makes a full size 4x32 as well as a 3-9x32, which are equally perfect for this type of shooter. These two scopes both have an adjustable objective with the unique ability to focus down to an amazing 7 yards.



Birdwatchers and hunters alike will love the new Emperor line of binoculars, which are designed and built to achieve a supreme optical quality. Their unique BAK-4 prisms with phase correction provide the clearest, brightest and crispest view, particularly noticeable when viewing fine details. The Emperor line features two models–an 8x42 and 10x42, both available in hunter green or grey. Both models are waterproof, feature a lightweight body, fully multi-coated optics, super wide angle, large eyepiece and

long eye relief. Summer is a great time to view nature, and Konus offers two new spotting scopes in the KonusSpot line that are perfect for hunters, birdwatchers, and nature enthusiasts who are looking for the most rewarding outdoor experience. The 20-60x70 features versatile zoom power, table tripod, camera adapter and carrying case. The 9-45x60 features a 45° eyepiece, impeccable optical quality and a zoom for maximum power and versatility. They come equipped with a new and improved tripod fully made of metal. For more than 30 years, Konus has provided customers with the highest quality European-designed products for their sporting needs, with special attention given to avid hunters and tactical shooters. Konus products range from riflescopes to spotting scopes and from electronic dot sights to binoculars (and more), with all KonusPro products warranted under a Limited Lifetime Replacement Warranty. Konus' world headquarters are based in Verona, Italy, while Konus USA headquarters are based in Miami, Florida. For more information, please call 305-262-5668 or visit konususa.com.
